Welcome to Rehabilitation Medicine Associates.

Rehabilitation Medicine Associates physicians and staff are committed to providing you with medical care of the highest quality. Enclosed you will find information about our clinic and physicians.

We are also enclosing health forms that need to be completed *before* seeing your physician. It is **very** important that you complete the forms before your appointment. ***Please bring the completed forms with you to your first appointment. If the forms are not completed your appointment may need to be rescheduled.***

Your referring physician will send any medical records, X-rays or other test results directly to our office. Please contact them to authorize release of the records. It is important for our office to receive your records *prior* to your scheduled appointment.

As a convenience to our patients, we bill most health insurance companies. ***Please bring your insurance information and/or insurance card(s) with you to each appointment.***

Our physicians strive to see every patient at their scheduled time. You can help them stay on schedule by arriving 30 minutes early for your first appointment to review paperwork with our staff. It is always a good idea to arrive a few minutes early for all other appointments. ***If you arrive late, the doctor may not be able to see you and your appointment may be rescheduled.***

Thank you for choosing Rehabilitation Medicine Associates.
Looking forward to meeting with you soon,
Rehabilitation Medicine Associates
